- Frontend Jnr Web Developer
- Backend work with PHP

Static Websites
Freelance

I made static websites for an IT Support business, videographers and artists.

- Design Websites
- HTML, CSS and JavaScript
- Hosting Websites

Personal Projects
Web applications

- **URL Shorten**: I made this project so that I can shorten long URLs and share them without using bitly.com. I used **React.JS, Node.JS, MongoDB** and **Firebase.**

- **Background Removal:** I learned how to share files between frontend and backend, which was fun to learn. I used **Next.JS, Node.JS** and an **AI API**.

ABOUT ME

Hi I'm Sihle Kambula and I am passionate about software development, from building static websites, web applications using React.js or Next.js, to mobile apps using Flutter.

I am a problem solver; I care about clean code and I genuinely love to learn different technologies. I'm currently looking for the right opportunity and to work in an environment that will help me improve my skills, to add value to the company and to create amazing software.
